### Developers

#### Name Forum Website

Chris Schulkes [schulkes](#)

Sascha Kattmann [kattmann.de](#)

Axel Weller [wellermedia.de](#)

Toni Smillie

qivva [extensions.qivva.com](#)

Julien Vonthron

JulienV [jlv-solutions.com](#)

### English and Testing

Thank you to the persons in the following list. They had always an eye on the English language file and invested much time into the proof reading of the English helpfiles. They tested and gave feedback during the development time of EventList and impacted one of the most important phases during the Design process. We know that this work is not the most glamorous, but surely one of the most important. We appreciate this work and assistance all the more.

#### Name Forum Website

Michael Sporer [sporer](#)

Nicholas Johnson [johnsonellis](#)

### Translation

From its origins in German and English, EventList is now truly international. The people below have worked very hard to make sure that whatever language you speak, EventList will speak your language also.

#### Language Website

Brasilian - Portuguese

Tacio Philip [tacio.com.br](#)

Catalan

Marc Antoni Joan n/a

Czech Jiri Vlasak / Henry Hejlik
